

## **AIRPORT MAINTENANCE MECHANIC I**

### **DISTINGUISHING FEATURES OF THE CLASS:**

This position involves responsibility for a variety of semiskilled and skilled tasks in the maintenance and repair of airport buildings, equipment and grounds. In addition, the incumbent is required to train and participate in Aircraft Rescue and Fire Fighting operation and comply with all State and Federal regulations pertaining to airport operations. Work is performed under the general supervision of a higher-level employee. An employee in this class may be required to work hours other than in the normal workweek. Supervision is not a normal function of the class.

### **TYPICAL WORK ACTIVITIES:**

The following is indicative of the level and types of activities performed by incumbents in this title. It is not meant to be all inclusive and does not preclude a supervisor from assigning activities not listed which could reasonably be expected to be performed by an employee in this title.

1. Performs building maintenance and repair activities such as painting, masonry, electrical roofing, plumbing, glazing and carpentry;
2. Performs grounds maintenance and repair activities such as mowing grass, grading earth, patching road ways, and installing signs and aircraft tie downs;
3. Performs snow and ice control activities in accordance with the FAA approved snow and ice plan, including the operation of snow plows and snow removal equipment and the application of ice melting chemicals and sand;
4. Performs maintenance and assists higher level employees in the repair of motor equipment, power tools and airport electrical systems;
5. Conducts maintenance and operation inspections of grounds, buildings, facilities and equipment, following established Federal and State guidelines;
6. Performs and is responsible for Aircraft Rescue and Fire Fighting (ARFF) activities including operation of ARFF vehicle, fighting fires, rescue of persons trapped in aircraft when accompanied by at least one other trained employee or outside fire rescue personnel, and assisting in rendering emergency first aid treatment;
7. Performs and is responsible for day to day wildlife depredation in accordance with required USDA annual training;
8. Patrols airport property, performs security checks including confronting and addressing suspicious activity and completes all required inspections;
9. Operates a two-way radio, maintaining contact with control tower;
10. Attends training programs and courses as directed;
11. Conducts airport inspections and issues orders to reopen airport following an emergency in the absence of higher authority.

### **FULL PERFORMANCE KNOWLEDGE, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS:**

Knowledge of the principles, practices, tools and materials used in the maintenance and repair of airport buildings and grounds;

Knowledge of Aircraft Rescue and Fire Fighting practices and procedures and emergency first aid;

Knowledge of construction equipment sufficient to operate efficiently in routine maintenance and repair of buildings and grounds;

## **AIRPORT MAINTENANCE MECHANIC I (Cont'd)**

Knowledge of automotive repair tools and practices;  
Knowledge of electrical repair tools and practices;  
Knowledge of motorized equipment repair and maintenance to keep equipment in operational condition and to perform repairs and maintenance;  
Ability to understand and carry out complex oral and written instructions;  
Ability to operate specialized motor equipment used in airport maintenance and operation;  
Ability to establish and maintain effective working relationships with others;  
Ability to operate two-way radios;  
Ability to work outdoors under all weather conditions;  
Ability to learn new repair and maintenance techniques;  
Personal characteristics necessary to perform the duties of the position;  
Physical condition commensurate with the demands of the position.

### **MINIMUM QUALIFICATIONS:**

- EITHER: (A) Three (3) years of paid work experience in building construction or repair, automotive repair, electrical repair or airport repair, maintenance and fueling;
- OR: (B) Two (2) years of paid work experience in building construction or repair, automotive Repair, electrical repair or airport repair, maintenance and fueling and possession of New York State Firefighter I (or equivalent);
- OR: (C) An equivalent combination of training and experience as indicated in (A) and (B) above.

### **SPECIAL REQUIREMENT:**

1. Possession of a valid Driver License to operate a motor vehicle in New York State at time of application and to maintain the position.
2. Possession of a valid class B Commercial Driver License within one year of permanent appointment and to maintain the position.
3. Possession of New York State Firefighter I (or equivalent) within one year of permanent appointment.
4. Attend annual FAA approved Specialized Aircraft Firefighting Training to maintain position.
